

TechNova Solutions
Junior Full Stack Developer Intern

About the Role

TechNova Solutions is looking for a young and energetic rockstar developer to join our fast-paced product team. You will work across the stack, shipping features that reach thousands of users. This is a hands-on internship with real ownership from week one.

Required Skills

- Strong proficiency in JavaScript and modern React for building user interfaces
- Must have experience with Node.js for server-side development
- Required: building and consuming REST APIs
- Solid understanding of HTML and CSS, including responsive layout
- Experience with a database such as MongoDB or SQL
- Version control with Git is required

Preferred Skills

- TypeScript is a strong plus
- Familiarity with Docker and containerised deployment is preferred
- Exposure to AWS or other cloud platforms is nice to have
- Unit testing with Jest or similar frameworks preferred
- Bonus: experience working in an Agile team

Requirements

- 5+ years experience building production web applications
- Candidates from Tier-1 college backgrounds strongly preferred
- Must be able to work from our Bangalore office five days a week
